Fund aim

The fund aims to maximise growth over the medium to long term while helping to smooth the peaks and troughs of investment performance. The fund currently invests in US and international equities, property, fixed interest securities, index-linked securities and other specialist investments.

Fund manager commentary 30 September 2020

The global economy continued to recover strongly during the third quarter of 2020 after many developed countries suffered their biggest falls in quarterly GDP on record in the second quarter as the COVID-19 pandemic took hold. In the UK for example, GDP fell by -19.8%, reflecting the severity of the lockdown measures taken to reduce transmission of the virus.

The UK lagged the major regional equity markets in the third quarter as confidence at home was undermined by concerns about Brexit, the withdrawal of £38 billion of dividends in the first half of the year and a resurgence of COVID-19 cases. US stockmarkets enjoyed another strongly positive quarter as investor sentiment recovered from March, although weakness in September pared back some of the gains. Overall, stockmarkets in China, Japan & Asia Pacific ex Japan continued to recover in the third quarter. European equities ended the quarter flat.

Including rental income, UK commercial property recorded a small positive return over the third quarter of the year. Industrials was the only sector to report capital growth in July and August. On the other hand, Retail capital values continued to fall significantly. UK government bonds (gilts) delivered slightly negative returns over the period. Yields on 10-year US Treasuries fell to a historic low of 0.5% in early August, before edging up to 0.7% at the end of September. The 10-year German bund yields remained in negative territory.

The M&G Treasury & Investment Office (T&IO) outlook remains cautious as global economic growth will be lower in 2020.
